# ABOUT US

Ismikhanli LLC is a company in Azerbaijan well known for its professionalism in gardening and fruit-growing fields.

The company is engaged in cultivating various fruit and vegetable products in the life-giving corners of Azerbaijan, as well as wholesale, trade and export of its own products.

## ISMIKHANLI

GROUP OF COMPANY

We have determined our key goal to deliver the best quality products to the consumers. Thanks to the professionalism and many years of experience, we cultivate natural products in the ecologically clean regions with high sensitivity.

We successfully implement highest quality standards to all stages of our business. Because we manage all processes beginning from sowing of seeds up to the moment when products are dispatched to the consumer, and we keep the quality constantly under control. We present our products to the customers under the trademark "FRUTRIS" and we do our best to strengthen confidence acquired thanks to this name year by year.

We are always trying to maintain our uniqueness in this area. Our reputation is strong among the final consumers and the companies we cooperate.

The symbol of freshness and nature — FrutRis apples!  
With every bite, feel the sun's energy and the pure taste of the earth.  
Red, green, pink... each color offers a different flavor!

No matter your choice, FrutRis quality always remains the same.  
It's not just the taste of the fruit — you can feel the quality too.  
In this section, you discovered the various apple varieties offered  
by the FrutRis brand. Each one stands out with its unique flavor,  
color, and texture.

On the next page, you'll find detailed information about our  
packaging — the carton and pallet structures that ensure our apples.
